Hamburg

Geh an die Grenzen

A detailed 3D architectural rendering of a city, likely Hamburg, showing a dense urban layout with various building heights, colors (grey, green, yellow, red), and prominent spires. The text 'Überfliege Hamburg in 3D' is overlaid in the center. A street name 'Spitaler - 10' is visible on a street in the foreground.

Überfliege Hamburg in 3D

Bring Hamburg nach vorne

A person is seen from behind, pointing at a computer monitor. The monitor displays a GIS application with a map showing parcel boundaries. A red line highlights a specific boundary between two parcels, with red circles at the vertices. The parcels are labeled with numbers: 12924, 12937, 12921, and 12920. The person is wearing a dark grey sweater. The background shows a desk with a laptop and a coffee cup.
