Check your guess

Far Away 4G Network

Distance between Earth and Moon 384.400 km

NASA and Nokia are working together
to build the first 4G Network on the moon.

Who we are

We create the technology to connect the world

From the enabling infrastructure for 5G and the Internet of Things, we are shaping the future of technology to transform the human experience.

We are a company with a rich history of innovation

Over our 150 year history we have never stopped innovating. Take a brief look at our rich history from paper manufacturing to Nobel-Prize winning discoveries of our Nokia Bell Labs group.

Dual studies with Nokia

Nokia as your cooperative partner

Win practical experience with one of the technology leaders worldwide

Be part of the team – from the very beginning

Profit from our 45-year-experience with the dual study model

Experience a truly global company – as part of your practical experience onsite or within an assignment abroad

Characteristics of the dual study

Gain practical experience
.... during all lecture-free
periods incl. bachelor
thesis and mandatory
practical semester

Be financially independent
.... already during your
studies

Profit from your personal
network and our
attractive junior job offers
.... after finishing your
bachelor
