**BIMM  
UNIVERSITY**

A university  
for the creative  
industries

**BIMM University Berlin is a branch of BIMM University in the UK.**

**At BIMM University, we provide an extensive range of courses in modern music, performing arts, filmmaking, and creative technology to over 8,000 students across 14 schools in the UK, Ireland, and Germany. We have a long-standing commitment to providing the highest quality in creative industries education, allowing students to maximise their career potential.**

**For 40 years, we've equipped our students with the knowledge and skills they need to meet the demands of the creative industries - and graduate feeling industry-ready. Beyond academic life, BIMM University offers a community built on a shared passion, creativity, and belief system. Our inclusive culture is at the core of everything that we do, binding us together and driving us forwards.**

# WELCOME TO BIMM UNIVERSITY BERLIN

**Our multi-disciplinary campus in the  
German capital**

## **Welcome**

- > Build your network and collaborate
- > Connecting you to the industry
- > Our students in the industry
- > Graduate story

**Since 2015, we've been training aspiring creatives just like you at our campus in Berlin. Our bachelor's, master's and Certificate of Higher Education (CertHE) courses get students ready for the demands of today and tomorrow's creative industries. They help the students that study with us to build successful and sustainable careers in the creative industries.**

**If you're someone who thrives on action, experimentation and pushing the boundaries, BIMM University Berlin is the right choice for you. We want to help you bring your wildest ideas to life, and equip you with the resources, knowledge and mind-set to do just that. With access to professional-standard facilities across our campus buildings, you'll learn with lecturers that actively work in the creative industries.**

**But on top of that, we've curated our campus to reflect the international reality of the industry. Despite the many languages present amongst us, we all share one: English. It's not only the language that connects us with one another, but it also gives us access to the international industry too. It enables you to collaborate across borders, and open your mind to new creative possibilities across stage, screen and beyond.**

**In this prospectus, you won't just discover what we have to offer. You'll also discover a future that's open to you. So, when you're ready, turn the page. It's time to get started.**

# Build your network and collaborate

The creative industries would be nothing without collaboration. Without a network to rely on, it's almost impossible to bring a project to life. That's why we put collaboration at the heart of your experience, allowing you to build a network throughout your time with us and beyond.

## Learn and work with your lecturers

Building your network starts from the moment you first step inside the classroom. Through our lecturers, you get to connect – and even work – with professionals actively working in the industry right now. Their wealth of experience and contacts within their field are there to help you towards a career you love.

## Collaborate with the industry of tomorrow

The students around you are the people you'll collaborate with for years to come. You'll enter the industry together, and support each other throughout your careers. With students from four different creative disciplines within our community, networking isn't limited by what you study, and you'll have opportunities to work on incredible interdisciplinary projects that take your skills to the next level.

Shoot music videos, voice video game characters, soundtrack experimental films, design virtual performance spaces, star in narrative shorts, adapt films to video games – the opportunities are endless.

”

***BIMM has always been about connections. Although the classes were insightful and helped me understand the difficult sides of the industry, the most useful thing I received were the connections that I made during my three years there.***

**Joshua Smith**  
Songwriting

”

# Connecting you to the industry

---

While our courses give you the raw skills and knowledge you need to get your foot in the door, you will also have opportunities aplenty to show what you know in real-life scenarios.

Our contact list spans music labels, talent agencies, production companies, festivals, games publishers and more. They trust us to provide them with the talent they're looking for while you get job opportunities you won't find anywhere else.

Getting you the experience you need to start a successful career once you graduate is what we're all about.

## **Work experience opportunities**

Each week, you'll receive job opportunities direct to your email inbox. Curated to provide the best opportunities for students and recent graduates, you'll be spoilt for choice when it comes to submitting an application.

## **Networking events**

We help you to develop critical networking skills that'll serve you throughout your career. To help with this, you'll get access to networking events in-house that bring the industry direct to you. Whether you're on the hunt for advice or an internship opportunity, our guests are hungry for talent just like you.

## **In-house careers support**

Got an interview you need to nail? Want to brush up your CV? Need advice on the wonderful world of freelancing in Germany? Whatever career goal you have, we'll give you the personalised support and advice to achieve it.

## **Staying connected**

Nurture the connections you make during your time at BIMM University with our digital network BIMM Connect. Spanning the worlds of music, film, video games and the performing arts, the site is your one-stop-shop for everything related to your creative network. BIMM Connect features jobs, resources, events and a space to keep your contacts in one place.

*"I learned a lot about the work of an A&R manager. Before my internship, I thought they were really hard to reach out to – now I feel much more self-assured about my skills as an emerging artist."*

**Ronja Pöhlmann**  
A&R intern | ATC Management

*"I'd always heard a lot about the festival and I wanted to be a part of it in whatever way possible. I thought I'd just be fetching coffees and that maybe I'd shoot some things, but in the end I did way more than I expected."*

**Daria Kostina**  
PR intern | Berlinale

*"Working at the festival really showed me all the work and planning that goes into one. I felt so lucky to be in the position I was assigned to."*

**Bernardo Villar**  
Artist Care (The Strokes) | Tempelhof Sounds

# ANOTHER NGUYEN

## Singer. Songwriter. Social worker.

*"I perform in the same venues I used to hang out in, and I'm more part of Berlin's creative scene than I ever could have imagined."*

*Ngoc Anh Nguyen (AKA ANOTHER NGUYEN) graduated from our Songwriting degree in 2020.*

*Today she works freelance full-time. Working across a number of different projects, there's one unifying force: music. Yet, it wasn't always clear that music would play such a pivotal role in Ngoc Anh's career. We took the chance to sit down with her and discover her path into the creative industries.*

### **Tell us about yourself.**

I'm Ngoc Anh Nguyen and I'm a singer, songwriter, and social worker. Growing up as the daughter of working class, Vietnamese immigrants, a career in music was never really on the table. No one around me worked in music so it wasn't an option I'd ever considered growing up.

My career started out in a different world: social work. It was what first brought me to Berlin, and it remains a huge part of what has kept me here. While I was training, I was involved in lots of other activities including Viet-German political and community networks, acapella and even swing dance. But my favourite thing to do was going to concerts. I loved the international crowd I'd meet at shows, and I always dreamt of being up on stage.

Eventually, I spent enough time going to gigs that I just couldn't wait any longer. So, I applied to BIMM and my life completely shifted. Now I perform in the same venues I used to hang out in, and I'm more part of Berlin's international creative scene than I ever could have imagined.

### **What does your career look like at the moment?**

Right now, I'm working freelance across a number of different projects. My main gig is my solo project, ANOTHER NGUYEN. I make what I like to call "empowering electro-pop". I'm currently working towards the release of my second EP, alongside doing session work with artists like Kat Frankie.

With my background in social work, I also work on projects that combine that experience with music. The big one right now is a film project called *Dreh's Um* that aims to teach young Vietnamese-Germans filmmaking skills. While I first got involved as a social worker, I'm now focused on developing and growing the project. For instance, we're now doing music videos, which is new for the project.

### **Your EP sounds super exciting! Can you tell us a bit more about it?**

I've been working on it for around a year now and it's due to come out in November 2023. Once it's out I'll also play a headline show at Badehaus on the R.A.W Gelände. It'll be surreal to play there as it's where my performance classes were back in the day. I'll be playing my new stuff with a full band so it'll be a real full circle moment. The support act is even a fellow BIMM grad!

### **You've decided to stay in Berlin long after graduating. What is about the city that keeps you here?**

I've just never got bored! I feel like the city has given me the opportunity to continuously

evolve in a really positive way. I don't just have to be one thing here: I can intertwine my passion for social work and music because that's who I am.

Plus, the creative community here is amazing. While Berlin has so many opportunities in the entertainment business, it's still got this rawness that's very human. For example, even when I had only just graduated, I got this opportunity through BIMM to be featured in a video portrait for Sennheiser. It just goes to show how good it is to maintain those BIMM connections once you graduate!

### **And to round us off, what advice would you give to someone thinking about studying at BIMM University Berlin?**

The first thing I would say is that you have to remember that you're in this for the long run. It's okay to pause and not always push.

For me, everything only really started after I graduated. While I was studying I was just exploring. Everyone has their own tempo and it's okay to feel lost sometimes, so don't compare where you are to anyone else.

I also think it's super important to network both inside and outside of BIMM. You've got to be proactive to turn everything you do and learn at BIMM into a career. Get involved with as many projects as possible. Just seize every opportunity.

 ANOTHER NGUYEN

# BERLIN

---

**A global hub for creativity, Berlin is a vibrant place for anyone looking to start and develop their creative career. This is a place where inspiration lies around every corner. Thousands of individuals and companies from the worlds of music, film, acting and gaming call the city home. Teeming with opportunities, Berlin is diverse, open-minded and has a future first mindset. It's a city waiting to be explored.**

## Berlin

- > Life
- > Creative industries

# Life in Berlin

---

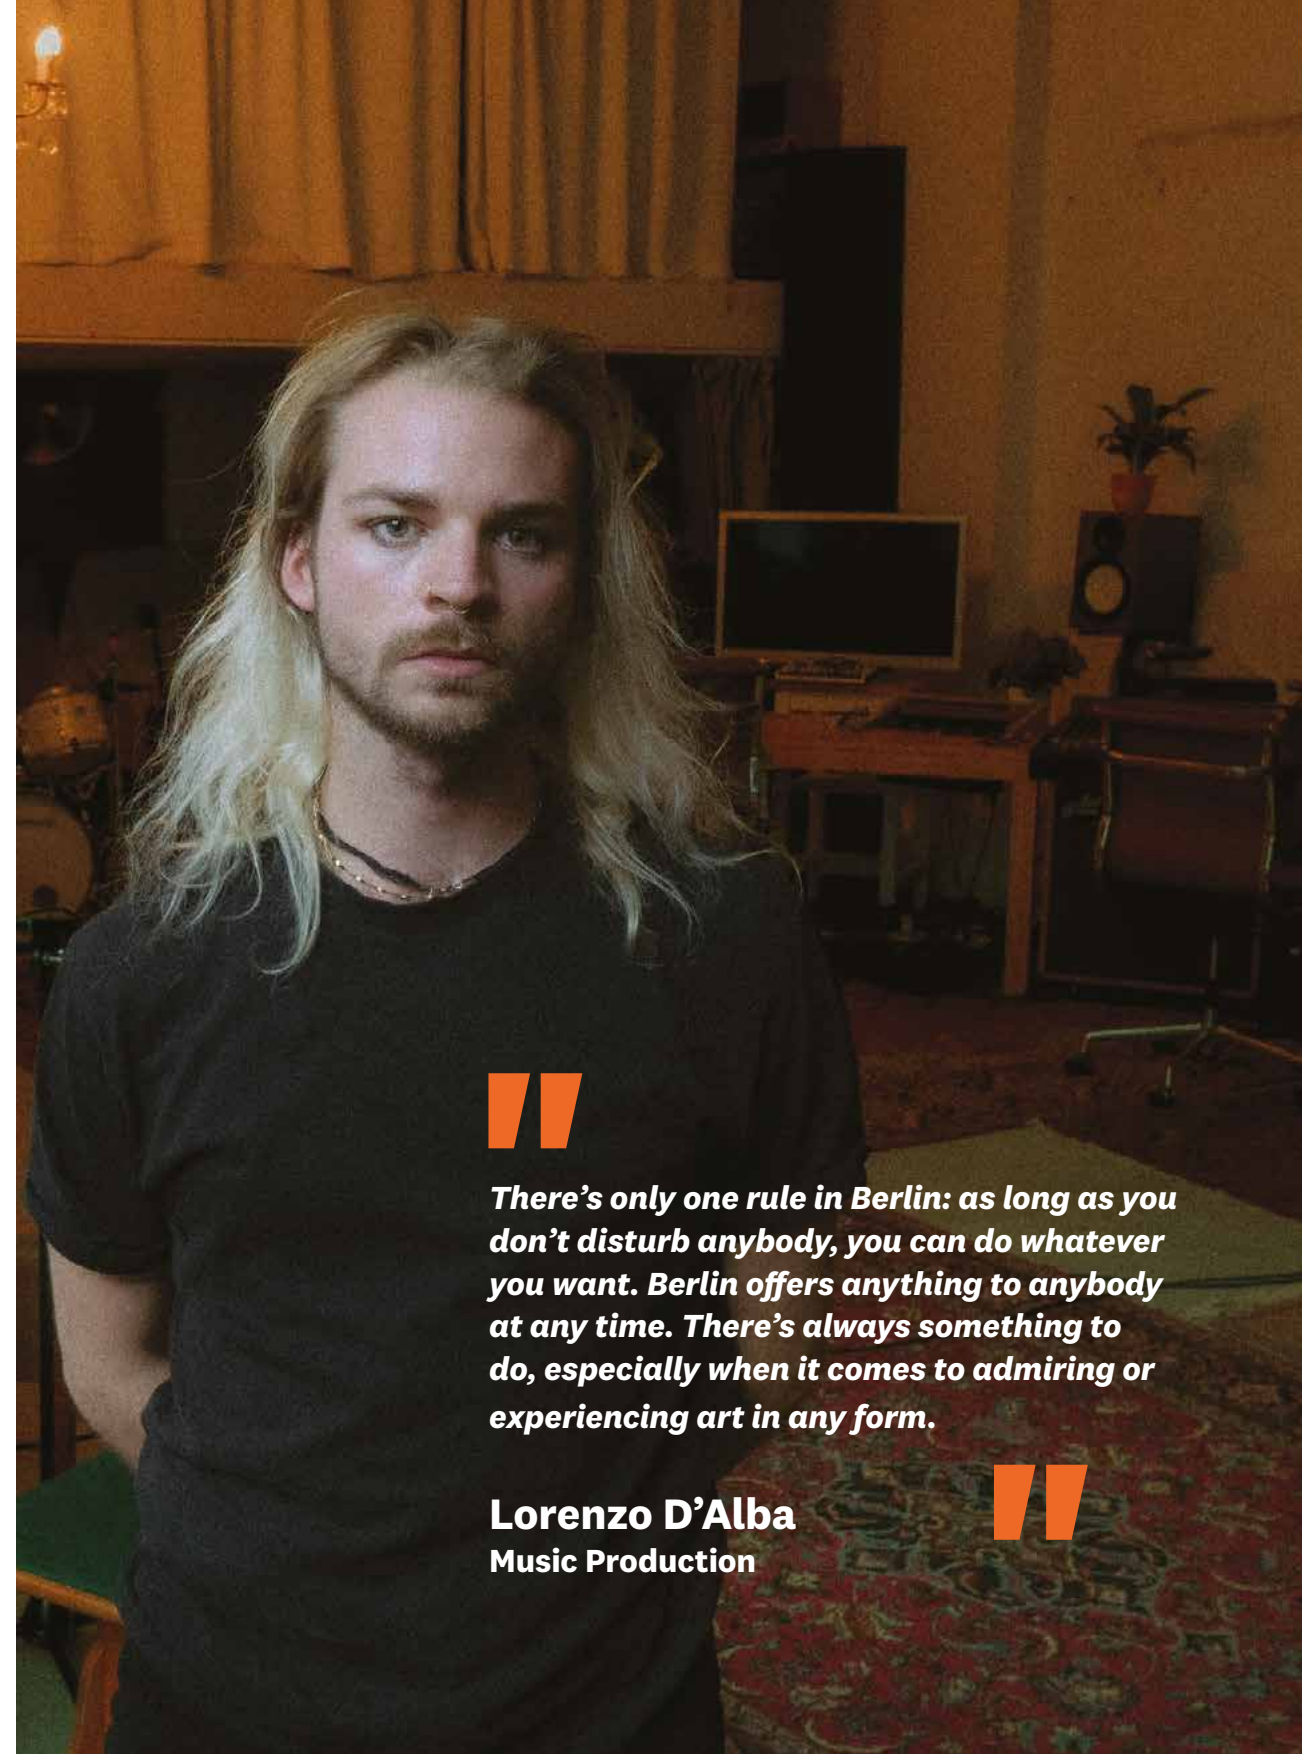

When people talk about Berlin, they often describe it as a city like no other.

The city was once a place of censorship, secrecy and division, but today is a proud defender of freedom, culture and innovation. The past and present coexist in Berlin: buildings old and new stand side-by-side and the remains of cold war infrastructure are just a stone's throw away from the city's bustling hubs.

And this fascinating environment of contrast is part of what draws creatives from all corners of the globe to the city. It's a place of endless inspiration and where creative disciplines collide to form something completely new.

But beyond this, Berlin is a city that gives creatives the freedom to work hard and play even harder: While the city's cost of living is lower than other major creative destinations like London, Barcelona or Paris, it still has all the benefits you'd expect of living in a European capital city. It's well-connected, it's young and it's a place where there is truly always something going on.

Berlin's ready and waiting for you.

***There's only one rule in Berlin: as long as you don't disturb anybody, you can do whatever you want. Berlin offers anything to anybody at any time. There's always something to do, especially when it comes to admiring or experiencing art in any form.***

**Lorenzo D'Alba**  
Music Production

# Creative industries in Berlin

Berlin's creative industries are a force to be reckoned with. For generations, creative institutions of all shapes and sizes have played an important role in the city's economy and cultural landscape. For the people that live here, culture plays a huge part in their lives, making the local industries here powerful and resilient in the face of challenges.

While many of the city's creative enterprises have been around for decades and longer, the city is also home to innovative and futuristic organisations that continually push the boundaries of creativity. For anyone looking to start their creative industry career, there are few places with more opportunities than Berlin.

## The Berlinale

Without doubt, the Berlin International Film Festival (more commonly known as the Berlinale) is a highlight of Berlin's packed film calendar. Welcoming filmmakers and actors from across the globe, the festival prides itself on being a unique place of artistic exploration and entertainment. As one of the world's largest public film festivals, there are tonnes of opportunities to get involved – whether as a volunteer, an intern or simply as an audience member.

## Endel

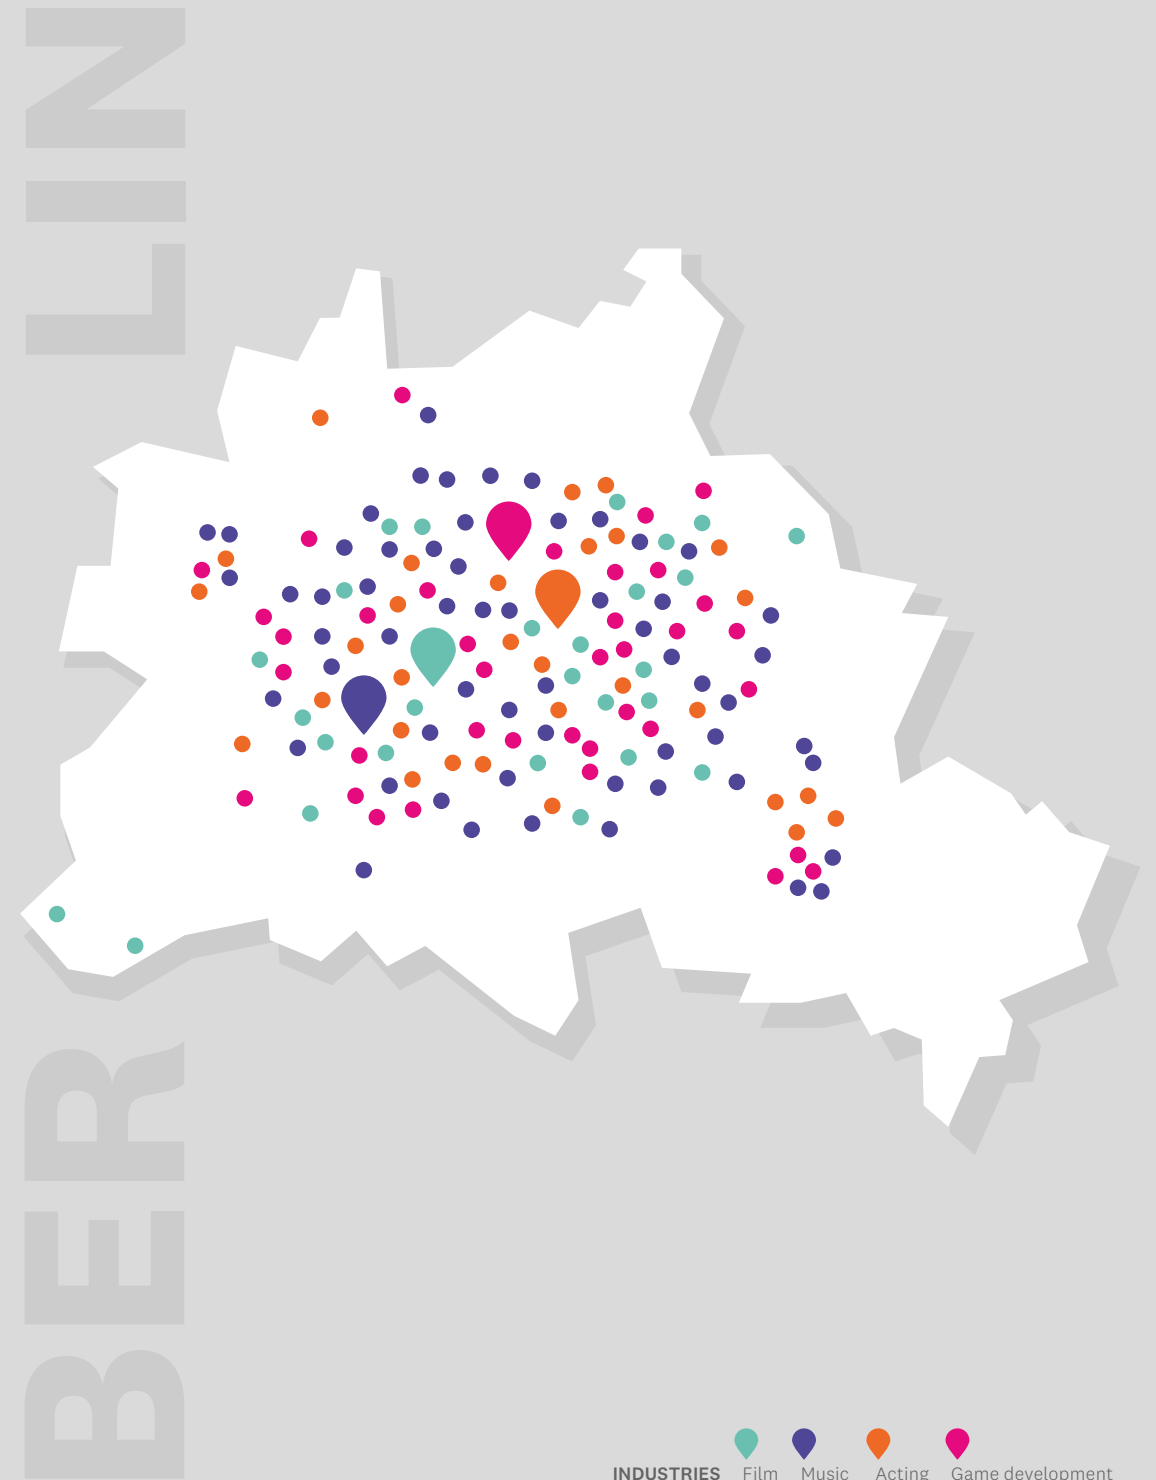

Founded in 2018, Endel is a sound wellness company that creates personalised soundscapes that help its users relax, focus, sleep and move. With AI technology at its core, Endel's mission is to democratise wellness by making it accessible to all. As part of this effort, Endel signed a distribution deal with Warner Music Group to release 20 albums created by algorithms and have also collaborated with internationally renowned acts like Grimes, James Blake and 6LACK.

## Volksbühne

Without doubt, Berlin's most iconic theatre, the Volksbühne (People's Theatre) is recognised worldwide as a leading European theatre. First opened in 1914, the theatre's founders wanted to make plays accessible to the common worker with prices that reflected that. Following this tradition, the Volksbühne today is known throughout the world for its ambitious, experimental, and often political productions.

## Kolibri Games

Founded by a group of business and IT students back in 2016, Kolibri Games is one of Berlin's most successful home-grown games studios. Specialising in the idle games genre, they captured the attention of French gaming giant Ubisoft, who later acquired them in 2020. With over 250 million downloads across their portfolio of games, and a wealth of awards in their name, there's no doubt that Kolibri games are just getting started.

# CAMPUS LIFE

---

Whether you come to Berlin from near or far, our campus is your creative home. It's made to motivate, inspire and connect you to the industry, with access to professional standard facilities and the knowledge of the industry experts that teach you. The students, lecturers and staff that make up our community come from all over the world, creating a diverse, open-minded and supportive network that you can count on throughout your studies.

## Campus life

# Welcome to our campus

---

Dear future BIMM University Berlin student,

We're so excited that you're considering joining our campus in Germany's capital.

As someone looking to start a creative career, you're making a great choice – Berlin is one of the most international and inspiring media cities in the world. It's a place where people from all nations of the world live together peacefully, where you can hear every imaginable language of the world as you walk down the street, and where you might meet a global star, a famous actor or a top producer in the café down the street. It's a city renowned around the world for its open-mindedness and where endless networks and creative communities can be found.

My role as Campus Dean is to make sure that your experience here at BIMM University Berlin is an unforgettable one. Together with the Heads of School, I work hard to ensure that the environment we create serves as a springboard to your creative career. From the facilities you work with, to the lecturers that teach you, we create optimal conditions for your creative studies.

Our student community is highly international with students coming to us from over 55 different countries. Each and every one of them brings a wide range of cultural and creative influences. Our campus is a place where everyone can feel safe and free to express themselves.

During your time here, I recommend that you network as much as possible with your fellow students, the lecturers and our masterclass guests. Take every opportunity to expand your network and gain practical experience. Go through the world with an open mind – every bird chirping, every traffic sign and every person walking by could help to inspire your next artistic project.

For so many before you, Berlin has been a great place to start a professional career in acting, film, music and games technology, and we're certain it'll be the same for you. As you take your next steps, we'd be happy and proud to accompany you through this important stage of your life.

Hope to meet you soon, and until then: enjoy exploring everything we have to offer.

**Robert Witoschek**

International Campus Dean

# Academic team and lecturers

Step into any classroom at BIMM University Berlin and you'll meet an industry expert. Our lecturers are experienced industry professionals who know exactly what it takes to build a successful creative career. Bringing years of experience, expertise and connections, they get you prepared to enter the industry and thrive.

Outside of your classroom time, you can also book 1-1 tutorials with any lecturer, regardless of whether they teach you or not. Flexible to whatever you want to focus on, tutorials allow you to get advice on projects, go deeper into something you've learned or explore new possibilities outside your course.

Scan the QR code to meet more of our lecturers

## Louise Macnamara | Music

Louise is an independent artist, songwriter and educator from Dublin. Writing and performing for over 15 years, she has released two studio albums with her indie-pop band Heathers and co-written with US and UK-based writers.

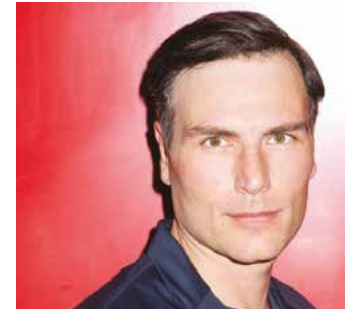

- 💡 Songwriting
- ★ Heathers · Co-writing: Rupert Christie (Dua Lipa) · Phil Danyew (Foster The People)

## Nathaniel Fregoso | Filmmaking

After graduating from UCLA in Film and Television, Nathaniel worked as an editor in Los Angeles for over 10 years. Focused on documentary filmmaking, he has worked on features, reality TV, music videos, and more.

- 💡 Editing for documentary
- ★ Editor for Laura Nix (Oscar nominee) · Sundance · Men in Black

## Peter Becker | Acting

Peter is an Anglo-German actor with a background in journalism, film production and education. He has worked globally on international stage and screen productions, and for British and German public broadcasters.

- 💡 Stage, screen and voice acting
- ★ Royal National Theatre in London · Babylon Berlin · ARTE

## Nick Rodriguez | Video games

Nick's journey reflects the evolution of the gaming industry, from the early days of PC games and the launch of PlayStation to the convergence of web, games, film, and television. This has led to him having an international career with some of the world's biggest games publishers.

- 💡 Level design, trans-media projects
- ★ Climax Games · Alien Resurrection · Metallica

## Yuhua Li | Music

Working between the boundaries of sound, theatre and video games, Yuhua Li (AKA Awu) is an accomplished sound designer and audio director. She has worked on interactive video game theatre pieces and for games publishers in Berlin, Munich and Shanghai.

- 💡 Sound design for video games
- ★ Virtual Collision · Inkium Games · Shanghai Canbox.tv

## Stephanie von Beauvais | Filmmaking

Stephanie is a filmmaker for music video, commercials and documentaries, who has worked across projects with budgets large and small. Alongside her work as a filmmaker, she has created visuals for live music performances and had her work screened in Berlin-based galleries.

- 💡 Music videos
- ★ Cro · Tocotronic · Twix

Photo **Monika Keller**

# Masterclasses

Alongside the industry professionals that teach you day-to-day, you'll also have access to regular masterclasses from guest lecturers. Through workshops, panel discussions, product demonstrations and more, they'll take you on a deep dive into their industry specialism.

Expect tastemakers, boundary breakers and leading experts from across the creative industries – all part of our masterclass offering exclusively for our students.

## Past guests

### Fabian Wagner

Cinematographer | Game of Thrones, Justice League, Sherlock

Born and raised in Munich, Fabian has built a highly successful career as a cinematographer working on some of the biggest shows and films in recent years. In his masterclass, he looked back to his early career to explore the dos and don'ts of starting out in the TV and film industry, and how everything he did led him to where he is today. Focused on relationship-building and networking, Fabian demonstrated that the connections you forge are just as important as the technical skills you have.

### Christine Franz

Filmmaker and music journalist | Bunch of Kunst, ARTE Tracks

Berlin-based journalist Christine Franz joined us for a screening and student moderated Q&A on her award-winning documentary feature, Bunch of Kunst. The documentary, which won Christine multiple awards, followed punk duo Sleaford Mods over the course of 2 years. Filled with intimate backstage interviews and surprise meetings with industry legends like Iggy Pop, Christine's masterclass gave students in-depths into creating feature-length documentaries.

### Lisa Marie Janke

Actor | Dark, 4 Blocks, Tatort, Anima Overdrive

German-Luxembourgish actor Lisa Marie Janke is an experienced screen actor and voice artist who has worked on TV shows, films and multi-media art projects.

In her 2-hour masterclass open to all students, she focused on foundational acting theory and practice to take the craft right back to basics. Complete with different exercises on movement, improvisation and voice, this was a highly interactive masterclass filled with learnings for all students regardless of what they were studying.

### Markus Immesberger

Head of International Marketing | Sony RCA

Markus is responsible for all international publications of RCA in Germany and has worked with global chart-toppers and newcomers like Miley Cyrus, Foo Fighters and Joy Crookes.

Markus' masterclass homed in on new developments in the industry: from how music is consumed today to the dominating influences of social media. Packed with data and insights from someone at the top of the industry game, this masterclass was ideal for performers and music business students alike.

# Our campus community

---

Our diverse community of students, lecturers, staff and alumni makes BIMM University Berlin feel like a home away from home. We're like-minded, passionate and always ready to raise each other up. This is a community that makes sure help is never too far away and where you can discover who you want to become.

## **Student wellbeing and welfare**

Our Student Wellbeing Team is there to support you through all the highs and lows that come with life. They're trained listeners who can offer confidential support and guidance whether you're having challenges with your course, study skills or student life.

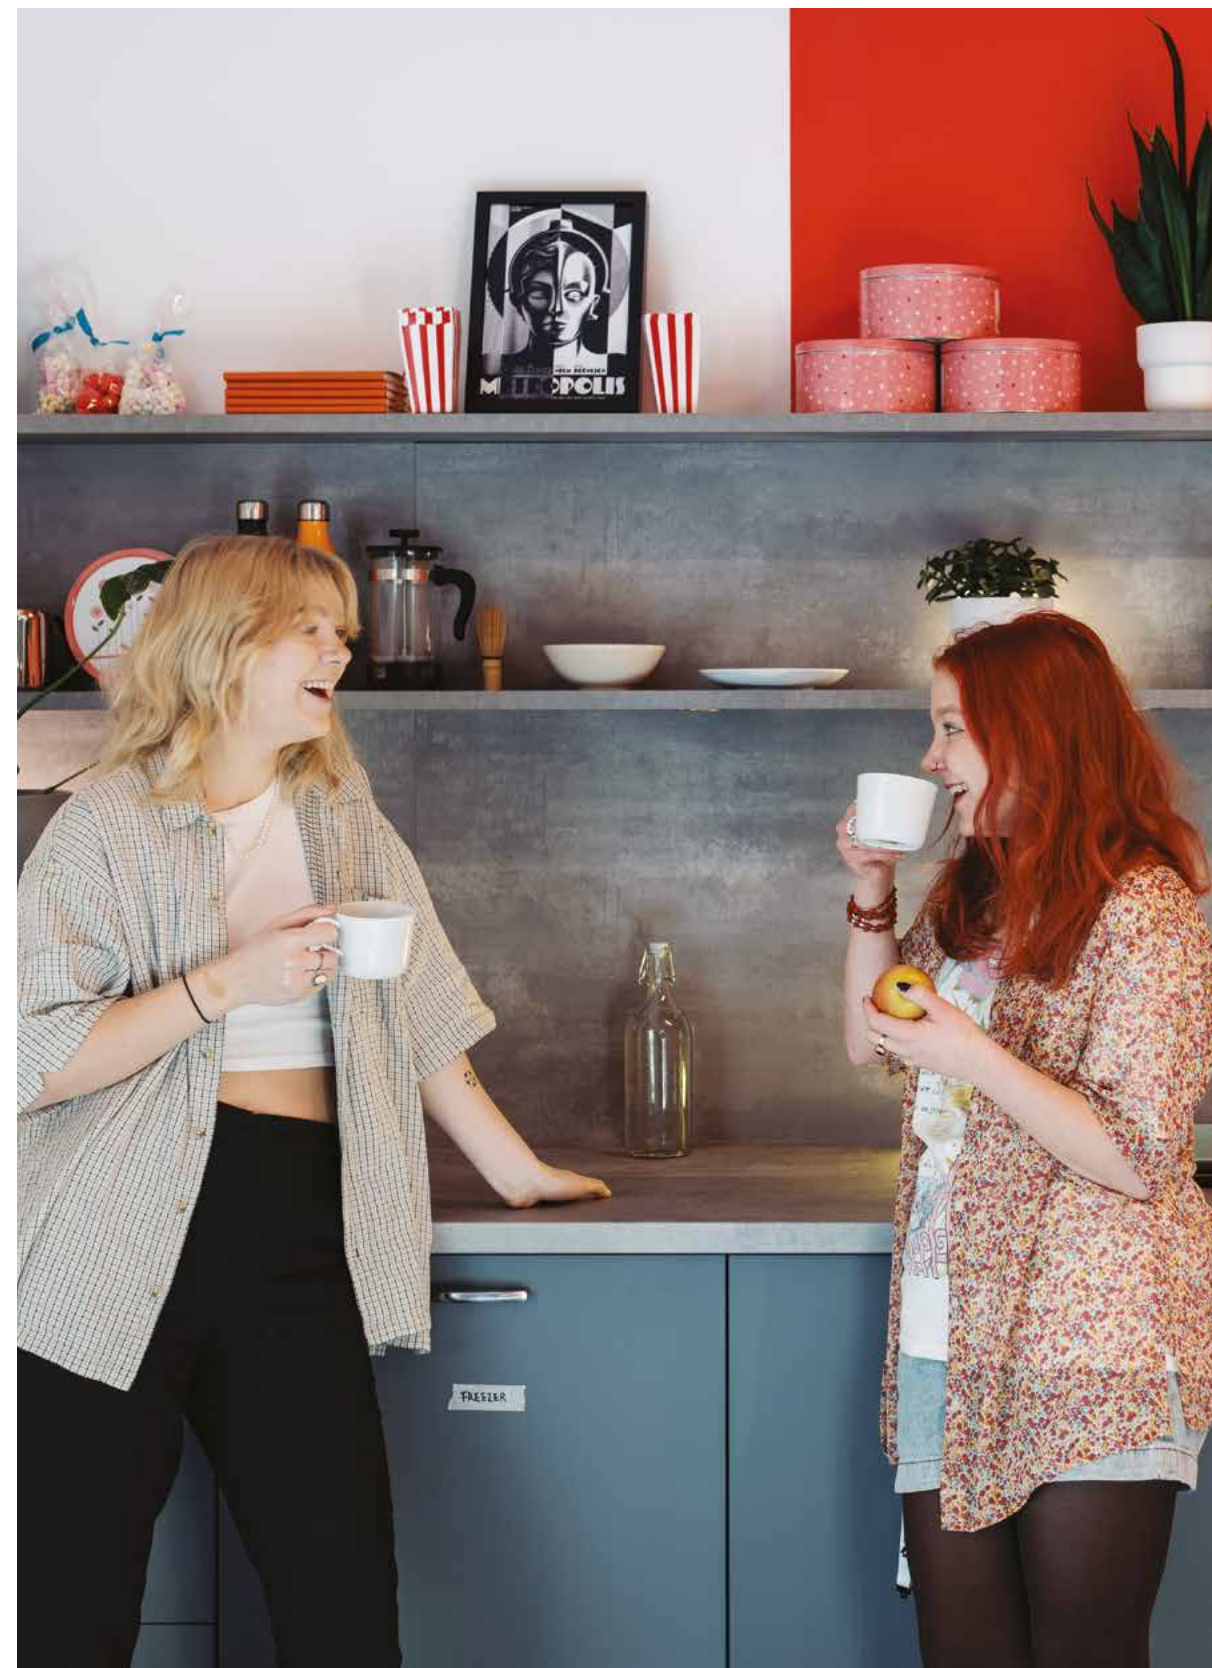

Offered on a one-to-one basis and strictly confidential, sessions with our team are there to equip you with the tools and services you need to thrive during your time with us.

## **Course leader expertise and support**

Been inspired by something you've learned in the classroom? Want to get expertise from outside the course you're studying? Need that last piece of advice before finalising your project? Through one-to-one tutorials with our course leaders, you'll get the support you need to reach your academic and professional goals.

## **BIMM Student Association (BSA)**

100% student-led, with support from your college's Student Wellbeing team, the BSA exists to enrich and continually improve the student experience. Get involved with student clubs, social events, talks, educational activities, sports teams and more to expand your network beyond your course and the projects you work on.

# Our buildings

Our facilities span two buildings located in the heart of Berlin's most creative districts. Across them, you'll find the resources you need to learn, play and experiment – all while developing skills critical to the career you want.

These spaces will become your creative homes. They're where you'll take what you learn in the classroom and put it into practice with real projects inside and outside of your course. Whether you're working solo or collaborating with students from across our community, our facilities turn your ideas into reality.

## House of Music

It does what it says on the tin: House of Music is where you'll find our specialist facilities for everything related to the creation of music and sound. This is where film and game soundtracks are conceptualised, designed and developed, our future favourite songs are born, and where voice is recorded for podcast, documentary, video games and more.

Where music and sound calls home, House of Music is an iconic building in the Berlin creative scene. A real hub of Berlin's industry, the building appeals to companies of all shapes and sizes including iZotope, Shure and Yamaha. Plus, just a stone's throw across the River Spree, you'll find the offices of industry giants like Native Instruments and Universal Music. But that's not all. House of Music also lies within the RAW Gelände – a vibey, graffiti covered area full to the brim with art galleries and ateliers, music venues, skate halls, gyms, event spaces and more.

As a student with us, you'll become part of the wider forward-thinking community that BIMM is a part of, bringing your talents to put on display – whether on stage, on screen or behind the scenes.

## Molecule Studios

As we grew up in the city, we needed a new space to play in. This space we now call Molecule Studios and it's where stories across stage and screen come to life. Within its walls, narratives and documentaries go from storyboard to shoot, green screens take us to locations out of this world, and we enter virtual realities at the touch of a button.

Molecule Studios is based in the Bouché Höfe complex, an area which has a long history of innovation within visual creation. Once home to AGFA – an early pioneer of technology for capturing image – our facilities here will get you ready to lead the next generation of forward-thinking creatives.

Alongside this inspiring history, you'll also rub shoulders with some of Berlin's brightest and most innovative creatives, thanks to the network of coworking spaces, post-production companies and recording studios in the area. And if all that hasn't got you sold, there's also Berlin's best falafel (our favourite, at least) just around the corner. What better place to expand your creative horizons?

# Tools, tech and equipment: **music**

We've kitted out our music facilities to the standard you'd expect to find in the industry. With access to instruments, amps, professional recording studios and more, you'll be able to become and collaborate with the talent of tomorrow.

## **In-house recording studios with analogue and digital desks**

Linked live and control rooms · 24-channel recording console · 7.2 surround sound · Isolated vocal booths · Pre-amps and effects modules · Audio monitors from Adam Audio · Access to Ableton, Pro Tools and Logic

## **Soundproofed live performance spaces with concert-grade sound systems**

Analogue and digital mixing consoles · 24-channel Behringer lighting console · Full backline and front of stage monitors · Scaffolded lighting rig with overhead stage lights · Projector

## **Mac labs**

Each Mac loaded with Ableton, Logic, ProTools plus plugins from iZotope, Soundtoys and more · 25-key MIDI keyboards · Audio interfaces · Dolby Atmos

## **Rehearsal rooms and classrooms**

Acoustically treated and soundproofed · Full backline · PA setup · USB compatible mixer · Specialist drum room

## **Instruments and equipment**

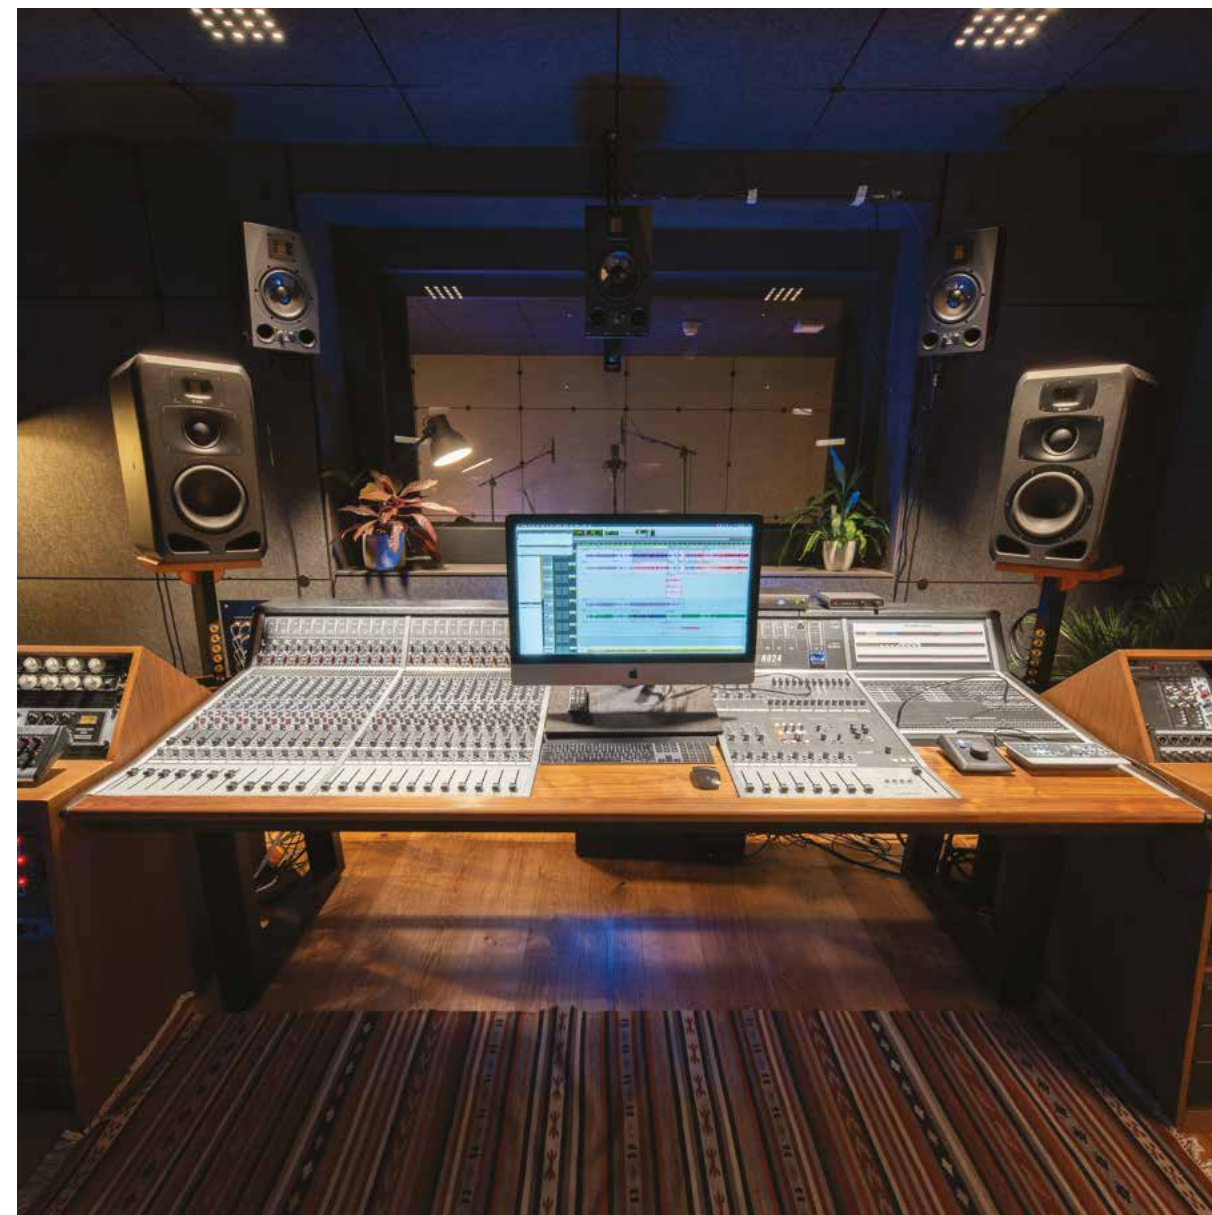

Guitars: Gibson · Fender · Ibanez ·

Guitar amps: Vox · Fender · Orange · Marshall · Blackstar

Bass amps: Ampeg · Markbass · Fender ·  
Drums: dw · Gretsch · Yamaha · Roland V-drums

Pianos and keyboards: Roland · Yamaha

DJ controller: Denon DJ

# Tools, tech and equipment: filmmaking and acting

Whether you're on stage, on screen or working behind the camera, our filmmaking and acting facilities let you bring your ideas to life. Using tools at the forefront of the filmmaking and acting worlds, we work to ensure you have what you need to make your projects look and sound beautiful.

## In-house film studio

Standing set · Black box · Infinity cove · Green screen · Dressing room

## Screening room with a 50-person capacity

8K Projector · 5.1 surround sound

## Edit and finishing suites

Dark and naturally lit · Apple Retina 4K display and HP true colour monitors · Mac Studios · Focusrite interfaces · DaVinci Studio · Adobe Premiere Pro · Avid Media Composer · Ableton · Logic · Pro Tools · ADR vocal booths

## Mac Labs

DaVinci Studio · Adobe Premiere Pro · Avid Media Composer · Logic · Pro Tools

## Equipment

Cameras: Sony FX9 · Blackmagic URSA G2 · Z Cam 6K E2 · ARRI Alexa · Canon C300

Lenses: Zeiss · Canon · DZO · Samyang · Sigma

Lights: ARRI L10 · ARRI L7 · Aputure Spotlights · Aputure Nova series LED panel lights · Selection of Amaran lights

Camera grip: Gimbal stabilisation units from DJI (Ronin 2 and RS2) and Ready Rig · Dana Dolly · Edelkrone Slider

Camera accessories: Cartoni tripods · Matte boxes · Wireless transmitters and receivers · Wireless follow focus · Camera shoulder kits · Rail Supports · Additional video monitors

Audio equipment: Microphones from Rode, Sennheiser · Tentacle Synch kits · Sound Devices MixPre-6 · Zoom F8 recorders

## Additional spaces

Production meeting room with 167cm TV · Movement studio · Workshop rooms

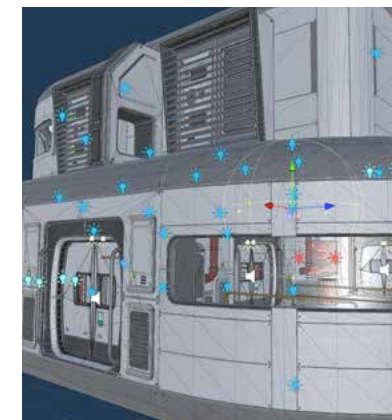

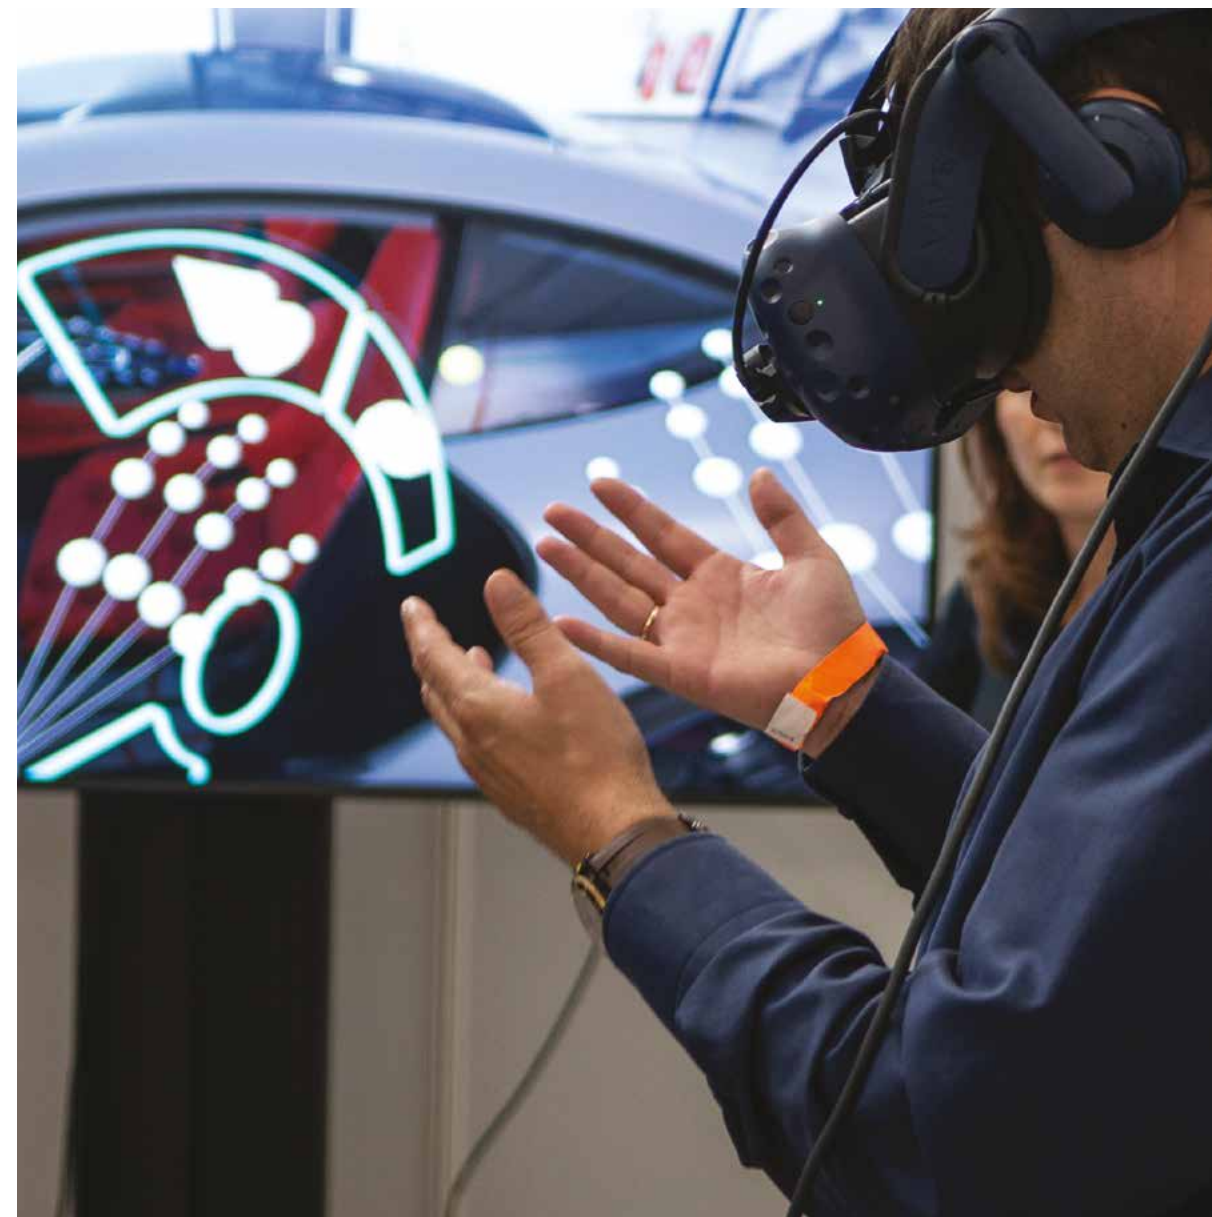

# Tools, tech and equipment: video games

The video games industry is booming with innovation and emerging tools. To build a successful games development career, you've got to be up to speed with what the industry are working with today. Our specialist game development labs give you the knowledge you need to enter the industry and thrive.

## Game development labs

Hardware: High-spec gaming PCs with the latest Nvidia RTX Graphics Cards · Wacom Cintiq and Intuos graphics tablets · Complete console gaming facility featuring PlayStation 5, Xbox Series S & X, Nintendo Switch and legacy systems

Software: Unreal 5 · Unity · Adobe Creative Cloud including PhotoShop, Audition, Substance 3D Painter and Designer · Side FX Houdini · Autodesk Maya · Visual Studio · ZBrush

# MUSIC

---

**Open the doors to your music career with one of our bachelor's or master's programmes in music. Whether you're looking to focus on performance, songwriting, production, the business side of the industry or combine two areas of interest, our courses equip you with the tools and knowledge you need to develop a sustainable music career.**

## **Music**

- > BMus (Hons) Popular Music Performance

- > CertHE Music

The beating heart of the popular music industry is live performance in its many forms. Establish your unique and exciting route into the live music sector with BIMM University's Popular Music Performance degree. This course is perfect if you're an aspiring musician looking to take your technical and creative performance skills to a professional level.

BMus (Hons)

# POPULAR MUSIC PERFORMANCE

Guitar, bass, drums, vocals

Combining core topics such as performance, technique, musicianship, theory and technology, you will find and develop your niche as a performer.

The course is taught by lecturers at the top of their game and can provide you with the knowledge and guidance you need to become a successful performing artist.

Day-to-day learning will be in fully equipped performance spaces and specialist classrooms based in our world-class buildings, perfectly preparing you to start your career in contemporary popular music performance.

You can tailor your course to your creative and career aims through our wide range of option modules. These modules will allow you to focus your studies and provide an individual and bespoke learning experience.

Furthermore, you can fully immerse yourself in the flourishing BIMM University community by embracing the endless opportunities to collaborate and perform with students on your campus.

This course will equip you with all you need to become a professional performer in popular music.

Scan the QR code for more information on modules, fees and entry requirements

**Get ready to unleash your creativity and passion with our Songwriting degree. You'll deep dive into one of the music industry's most intuitive, creative cornerstones by exploring lyricism and aesthetics, creating music with technology, and music publishing.**

**BMus (Hons)**

# **SONGWRITING**

Working with diverse, talented artists to bring your aesthetic and creative goals to life will be at the heart of the course. Day-to-day collaboration with fellow songwriters, performers, producers and business and events students on your campus will allow you to build the knowledge and professional networks that will catapult you towards success in your chosen field.

From day one, you'll be encouraged to develop your identity as a songwriter whilst exploring various related techniques and disciplines. Then, as the course progresses, you can choose option modules that best suit your interests and career aspirations.

Highly experienced lecturers currently active in the industry will guide you through core topics such as styles and genres, songwriting techniques, musicianship, music publishing, events and releasing, and digital audio workstation technology. You'll also get to attend events where some of the best artists in the world will speak

about their creative practice and careers in the industry, providing you with valuable and unique insight into the field you wish to enter.

This course will give you the knowledge and skills to become a successful songwriter.

Berlin's BA (Hons) Songwriting and Music Business  
Degree.**

**BA (Hons)**

# **SONGWRITING & MUSIC BUSINESS**

Calling all aspiring songwriters, are you ready to pursue your passion for music and tap into our music industry network? If so, this degree is perfect for you. It offers a deep dive into your craft and immerses you in the inner workings of the music world.

Explore the art of songwriting, from technique to styles and genres, and collaborate with fellow bands, performers and producers. Then put on your business hat and delve into the world of music publishing and marketing, where you will gain a profound understanding of the music business.

We will invite you to blend your creative talents with a keen business acumen, which will give you a wide range of potential career paths including becoming a self-managed artist or composer, working in music publishing, or entering the world of entertainment law.

You can customise your journey as you progress, tailoring what you learn in the classroom to match your professional ambitions through option modules that build skills in areas such as performance, session work, arranging, teaching and more.

You can expect to experience daily collaborations with fellow artists, and our exceptional work opportunities, including placements and internships, provide hands-on industry opportunities from the get-go.

Throughout your degree, you will learn from experienced lecturers who are all active in today's music industry. They are here to guide you towards your personal and professional goals.

Combine your love for songwriting and music business today and set the stage for a fulfilling career in the music industry of tomorrow.

**Seeking to elevate your music production prowess? BIMM University Berlin is the ultimate destination for aspiring music producers like yourself.**

**BA (Hons)**

# **MUSIC PRODUCTION**

Today's music production landscape is rich and diverse, and our Music Production degree equips you for success, whether your passion lies in recording, sampling, or synthesis. Beyond technical production skills, you'll also develop project management and business acumen, setting the stage for a sustainable and rewarding career in the industry.

What's more, you'll be invited to dive into collaborative projects, exploring audio for film and video games, alongside your peers who are studying a film or video games degree. These diverse experiences will be a huge help when it comes to standing out in the industry.

You can expect a dynamic course that covers all aspects of music production, from recording techniques to mixing and sampling to studio practice and working on briefs to launching your own projects. You will also gain proficiency in various Digital Audio Workstations (DAWs), giving you the confidence to work with different systems and software.

You will receive expert guidance from world-class lecturers and your education will blend hands-on workshops, individual practice time, networking, and collaborative projects. Students will also benefit from the wisdom of renowned producers through regular industry masterclasses.

Ultimately, our flexible course lets you shape your own learning journey, focusing on the areas of music and sound production that ignite your passion. Dive into a wide array of option modules to become the versatile producer the music industry needs.

Take your music production skills to new heights with BIMM University Berlin and begin your music career today.

**3 years full-time  
Awarded by BIMM University (UK)**

**Stand apart from others in your chosen field and lead the discussion in contemporary music with the MA Popular Music Practice, an MA that is perfect for music practitioners – performers, producers, composers or entrepreneurs. You'll explore your own specialism within popular music in line with your personal career aspirations.**

## MA **POPULAR MUSIC PRACTICE**

Research, collaboration, professional development, experimentation, 1-2-1 guidance and more. This is what this course offers. You'll be pushed to expand upon everything you know, moving you away from the skills-based style of undergraduate learning and towards becoming an influential and unique voice in your industry.

We'll help you to turn your creative ideas into reality by introducing you to cutting-edge research and assist you with broadening your network within the industry.

Through four modules across autumn and spring semesters, you will apply a theoretical lens to your own and others' professional practice, and by drawing on contemporary research you will be encouraged to actively investigate areas such as popular musicology, performance and composition, the music industry and entrepreneurship, and the application of technologies to practice.

Your contact time will be split between one-to-ones with a specialist from your field and lectures and seminars where you study alongside students from different disciplines.

Then comes the crescendo: during summer semester, the course will culminate in your major project: an extended piece of work that explores your chosen area of specialism and gives you the ultimate platform to express yourself.

**Scan the QR code for more information on modules, fees and entry requirements**

**1 year full-time, 2 years part-time  
Awarded by BIMM University (UK)**

**Get ready to discover Berlin, the creative capital of Europe, as you embark on a year-long musical journey of your very own.**

## CertHE **MUSIC**

Whether you're a budding musician, songwriter, or music producer, dive into BIMM University's Cert HE in Music and begin your own creative adventure in the beating heart of Germany, a country with a rich artistic heritage.

Picture yourself in Berlin: a city that is known for inspiring artists from around the globe and has creativity bursting from every corner. The German capital, along with the course itself, will take you on a year-long cultural odyssey.

What's more, you will join forces with uber talented students from a whole host of backgrounds and with a whole host of interests. This isn't just about music; it's about imagining the possibilities when different creative disciplines merge. Think filmmakers, think actors, think video game developers.

As you sharpen your musicianship, songwriting, or music production skills, you'll build a bespoke portfolio. The 'Studio Project' module immerses you in real-world practices and fosters industry-leading collaborations. It's hands-on learning at its finest.

This Cert HE course can be your stepping stone towards a bachelor's degree, meaning that your journey doesn't have to end after a year; it can continue on to further heights.

All are welcome at BIMM University, and everyone can thrive. Don't worry if you don't have formal qualifications as we welcome mature students with a passion for music and valuable experiences they wish to share.

If you're ready to create music, to make friends, and memories, then join us in Berlin and let your creativity soar. Don't miss this chance to earn a globally recognised qualification whilst at the same time living the artistic dream in a cultural hotspot. The world of music is calling.

# FILMMAKING AND ACTING

---

**It's your time to make a scene. Get the knowledge and skills you need to make your mark with our courses in filmmaking and acting. Taught by industry experts and with the needs of the industry at the forefront, you'll unleash your creativity and explore your craft across projects that push the boundaries of what it means to be a filmmaker or actor.**

## **Film and acting**

- > BA (Hons) Filmmaking
- > BA (Hons) Acting for Stage, Screen and Digital Media
- > BA (Hons) Filmmaking (TOP-UP)
- > MA Screen and Film Production
- > CertHE Screen & Film

**The demand for creative content in the film and screen industry has never been greater. This innovative and collaborative Filmmaking degree allows you to acquire the fundamental skills and techniques required for a sustainable career in the film and screen industries.**

BA (Hons)

# FILMMAKING

This course will immerse you within a community of creative, collaborative practice where the art of filmmaking is at the centre. You will learn how to navigate the industry, which will support the technical and creative film craft skills you develop throughout your studies.

Film production is continuously evolving, and we are constantly adapting our courses to meet the needs of the industry. This course's intensive curriculum will challenge you to develop your skills and prepare you for today's production world. Moreover, you will gain experience shooting your projects on professional-standard equipment such as the Sony FX9, the Blackmagic G2 URSA and the Z Cam E2 6K.

Throughout the course, you will create a professional showreel, which will serve as a calling card for your filmmaking skills and upon graduating, you will be a fully-fledged filmmaker who is ready to progress into work within the film and TV industry as well as other exciting areas such as digital media, marketing and distribution.

**Scan the QR code for more information on modules, fees and entry requirements**

**3 years full-time  
Awarded by BIMM University (UK)**

**The BA (Hons) Acting for Stage, Screen and Digital Media undergraduate course offers rigorous and multi-faceted practical training that will prepare you for the demands of the professional acting industry.**

**BA (Hons)**

# **ACTING FOR STAGE, SCREEN AND DIGITAL MEDIA**

You will experience various actor training methodologies and approaches to ensure you graduate as a flexible and adaptable artist, ready to embrace our multi-media profession.

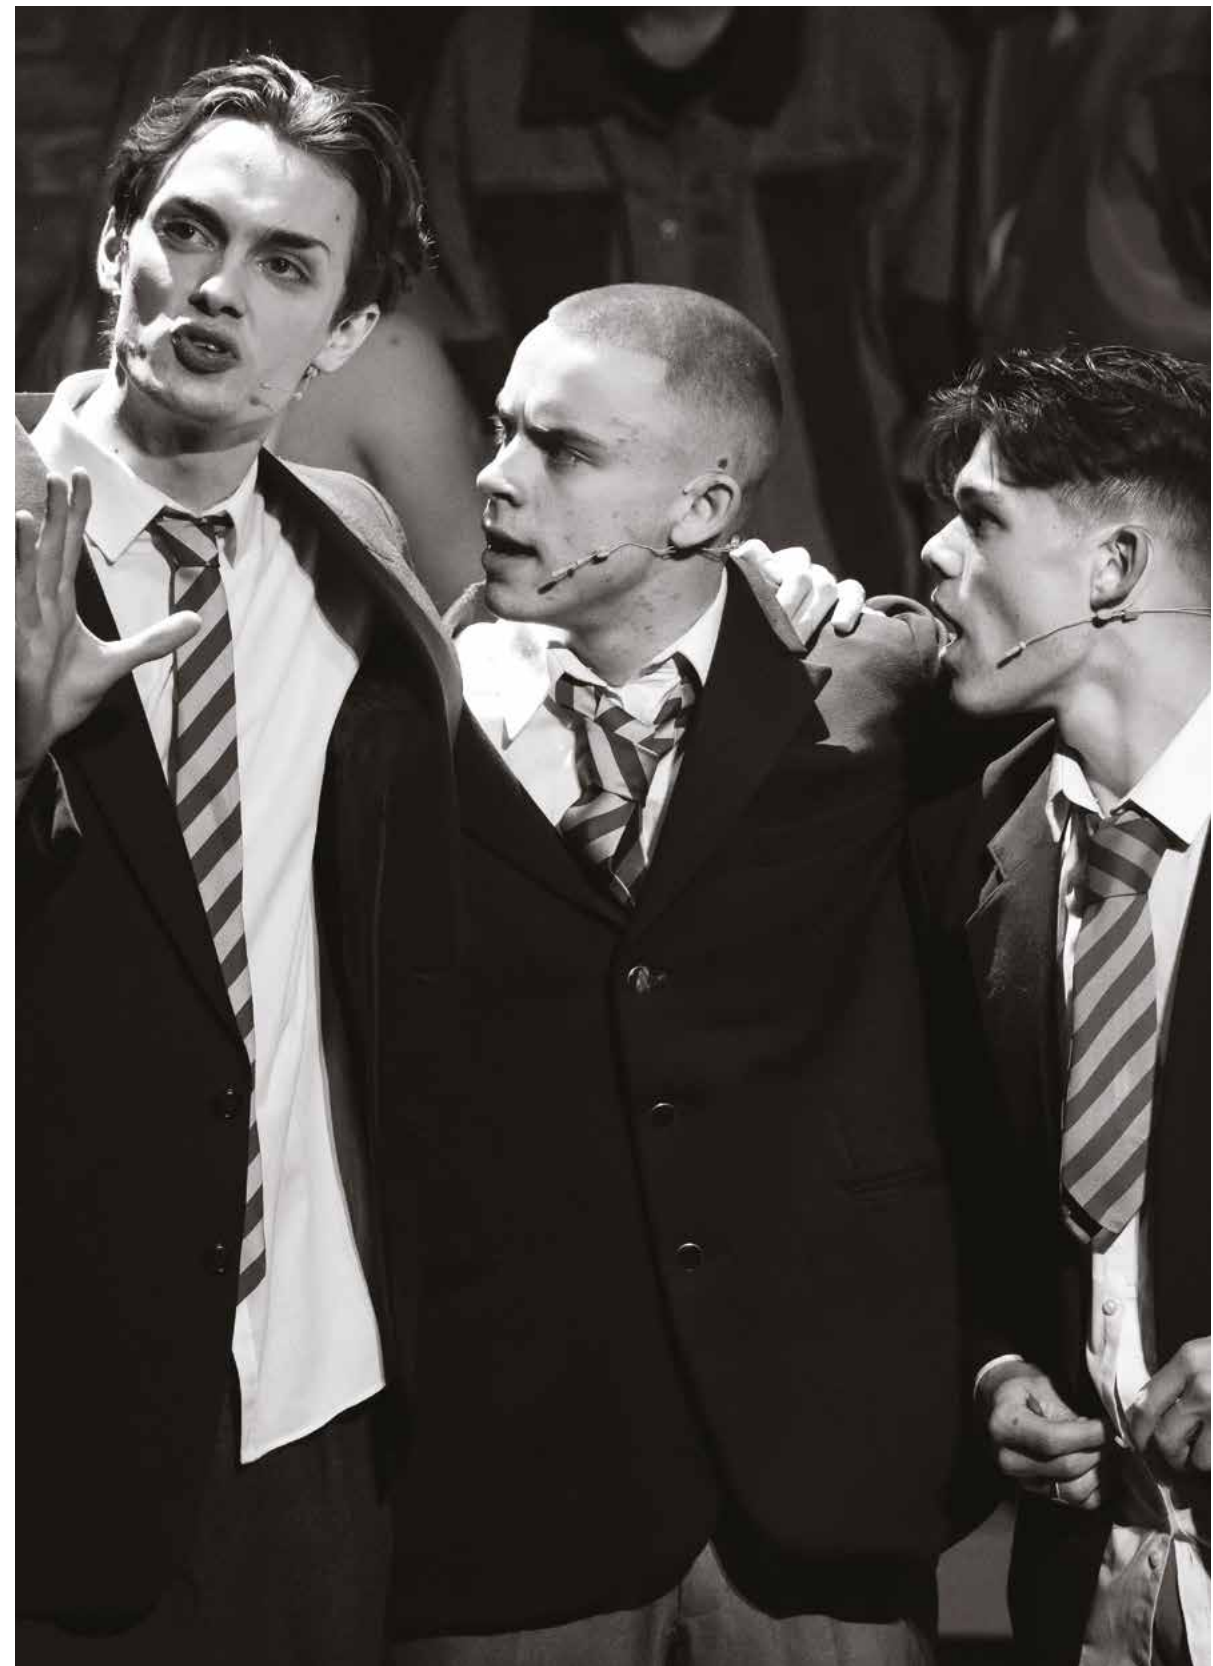

Our vibrant and innovative course continuously develops your artistry; performance opportunities may include short films, documentaries, music videos, radio drama, community theatre, contemporary and classical plays. Specialist masterclasses and workshops include subject areas such as mask work, puppetry, TV presenting, stage combat and more.

The crescendo of the course is a red-carpet extravaganza screening of short films at a local independent cinema, plus a fully produced play at one of the leading commercial theatres in your chosen location. Industry guests will attend both events to help provide you with a springboard into the profession.

You will then have the necessary skills to work as an actor across various performance mediums, including stage, screen and digital.

**Scan the QR code for more information on modules, fees and entry requirements**

**Already studied Filmmaking or a related subject at degree level, and achieved a minimum of 120 ECTS credits or higher from these studies? Take your passion for Filmmaking further to achieve a full BA degree with our Filmmaking Top-Up course.**

BA (Hons)

# FILMMAKING (TOP-UP)

This cutting-edge course in practical filmmaking (fiction and non-fiction) is embedded with a strong conceptual and theoretical background in film production and industry practice.

A student-led top-up, it will provide you with the opportunity to focus on a film form and discipline of your choice. The course also includes a critical understanding of applied film theory and industry insight from our network of guest lecturers.

We run specialist and advanced workshops on equipment such as the Sony FX9, DaVinci Resolve colour grading panels and Sound Devices audio recorders. You can gain experience in editing and post-production software such as Premiere Pro, After Effects, DaVinci and Avid.

To support the transition into the creative industries, upon graduation you will have had access to our industry film and television partners. With a clear focus on

inspiring and developing practicing filmmakers, you will leave BIMM University Berlin with a calling card for your skills, a professional portfolio and an understanding of how to navigate the film industry.

You can specialise in the following film forms: narrative shorts, documentary and other formats including music videos.

Graduates will then have the chance to progress directly to employment in the film and television industry in roles as diverse as cinematographer, production assistant, writer, director, sound recordist, editor and many more disciplines.

**Scan the QR code for more information on modules, fees and entry requirements**

**Calling all filmmaking graduates and specialists: our MA in Screen and Film Production will enable you to advance your career, develop and enhance your skillset, and align yourself with top industry professionals. Get ready to see your best creative ideas become a reality on screen.**

## MA **SCREEN AND FILM PRODUCTION**

Calling all filmmaking graduates and specialists: our MA in Screen and Film Production will enable you to advance your career, develop and enhance your skillset, and align yourself with top industry professionals. Get ready to see your best creative ideas become a reality on screen.

Through research-based practice this new MA puts you and your aspirations at the centre of your learning, whilst also refining your chosen specialist pathway.

There will be freedom to design and realise your own bespoke master's experience. With support from your chosen mentor, an industry expert who will be in tune with your specialism, you will gain invaluable insight into the film, screen and television industries.

What's more, as well as your own bespoke journey, collaboration will be key. You will have access to the latest industry level production sets, studios, technology

and resources to bring your projects to life. Of equal importance, vast opportunities will exist to collaborate with practitioners from other creative disciplines at BIMM University: actors, musicians, performing arts students and video games makers.

The potential career pathways are as endless as the film and TV ideas that will be floating around in your imagination: writer, director, producer, sound designer, screenwriter, production designer, and more - you will be able to develop micro-projects, such as trailers and pitches to gain insight into your research project and its potential outcomes.

Now is your time to make a scene.

**Scan the QR code for more information on modules, fees and entry requirements**

**NEW for 2024**

**Berlin is the creative epicentre of Europe, and it is waiting to be discovered by you. Pack your bags and get ready to embark on a year-long filmmaking journey in the German capital.**

CertHE

## SCREEN & FILM

BIMM University's Cert HE in Screen & Film is perfect for passionate filmmakers who are looking to make their mark on an industry that is beyond booming, in the beating heart of Germany, a country with a rich heritage of cinematic flair.

Picture yourself in Berlin: every street corner is a potential movie set. Let the city be your muse as you hone your filmmaking skills throughout a whirlwind year of creativity. The German capital, along with the course itself, will take you on this year-long cultural odyssey.

You will join forces with uber talented students from a whole host of backgrounds and with a whole host of interests. It won't just be about filmmaking; it will be about co-creating art that transcends borders. Think musicians, think actors, think video game developers.

Over the course of a year, you'll refine your filmmaking craft by tapping into dynamic lectures, hands-on workshops, and the creation of a dazzling portfolio.

Your magnum opus will be the 'Studio Project' module, which immerses you in real-world filmmaking practices and encourages industry-like teamwork.

After this jam-packed year, your path to the Big Screen will be firmly in place and if you're dreaming of a bachelor's degree this programme opens doors for progression, making your cinematic aspirations bigger and brighter.

All are welcome at BIMM University, and everyone can thrive. Don't worry if you don't have formal qualifications as we welcome mature students with a passion for film and valuable experiences they wish to share.

If you're ready to commit your ideas to celluloid, to make friends, and memories, then join us in Berlin and let your creativity soar. Make the films you want to see and connect with fellow filmmakers from around the globe.

Your cinematic journey starts here.

Awarded by BIMM University (UK)**

# VIDEO GAMES

---

**Level up your passion for video games with one of our bachelor's courses in game development. Combining creativity, design and tech know-how, each course trains you in the emerging technologies driving innovation within the gaming sector. Our three courses let you focus on the side of the industry you're most passionate about, ensuring you graduate with the skills this growing industry demands.**

## **Video Games**

- > BA (Hons) Games Design and Development
- > BA (Hons) Games Art and Technology
- > BSc (Hons) Games Technology

**Our brand-new Games Design and Development degree is a comprehensive course tailored to equip you with the essential skills and knowledge needed to thrive in the dynamic games design industry.**

**BA (Hons)**

# **GAMES DESIGN AND DEVELOPMENT**

his course will allow you to develop an understanding of how players interact with games systems and what motivates them, as well as using games engines to test your ideas out. This will be done in the most adventurous way possible: there will be freedom to fail and learn from mistakes made along the way, all in the name of experience.

A multi-disciplinary approach combining gaming expertise and a theoretical understanding of game design and development will help you fully immerse yourself from the word go. Throughout the course, you will delve into the intricacies of the game development process, gaining insights into narrative design, mechanics, technical design, and level design pipelines.

At BIMM University, we understand that the real measure of success lies in your ability to find your place in the industry once you leave, and this degree

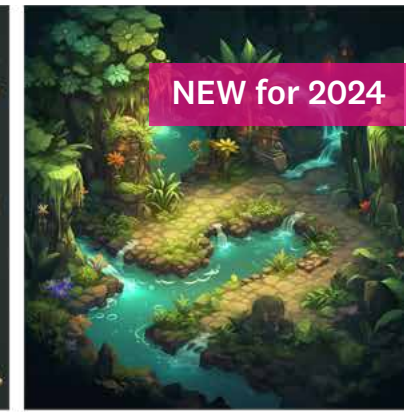

course will provide you with practical experiences and industry connections to help you make a seamless transition from the classroom to the professional world. Our dedicated Creative Technology faculty, who are experienced industry professionals themselves, will guide and mentor you, ensuring you are well-prepared to embark on your journey as a game design and development expert.

Prepare to unlock the doors to endless possibilities in the games design industry, and get ready to build your path to success with our Games Design and Development degree.

This course is subject to approval.

**Scan the QR code for more information on modules, fees and entry requirements**

**Our Games Art and Technology degree is a bespoke course that helps you gain an intimate understanding of the art development process, exploring such domains as environment design, character design and technical art practice.**

BA (Hons)

# GAMES ART AND TECHNOLOGY

Here's the real fun bit: this is your chance to explore how to tell the stories that pop into your head in the most visual way possible.

It also reaches beyond that, and our carefully crafted curriculum is designed to prepare you for a successful career in art departments within the games industry. You will gain a strong understanding of how 3D models are designed, built and deployed into games engines. Meaning that by the time you graduate, you will have a comprehensive grasp of the industry's production methodologies, and you will be well-prepared to make your mark in this dynamic field.

That's not to mention the opportunity for cross-collaboration with your peers studying TV and film: you will explore these technologies together.

All of our Creative Technology courses go beyond the classroom, offering you practical experiences and industry connections to help you seamlessly transition into the professional world because the success of our industry-focused teaching lies in finding your place in the industry once you have graduated.

Let your artistic talents flourish and have fun along the way as you pave your way to success with BIMM University's Games Art and Technology degree. Together, we'll shape your future in games art's vibrant and ever-evolving world.

This course is subject to approval.

**Scan the QR code for more information on modules, fees and entry requirements**

Welcome to our Games Technology degree. This is your gateway to a fulfilling career in the areas of the creative industries that rely on cutting-edge games technologies and to understand how games are built from the ground up.

BSc (Hons)

# GAMES TECHNOLOGY

This comprehensive course provides the essential skills and knowledge needed to excel in industries ranging from film and virtual reality to medicine and augmented reality. This is your chance to grasp the technical intricacies and theoretical foundations of games engines, empowering you to make a tangible impact in diverse fields such as visualisation, architecture and training.

By focusing on the game development process, our programme gives you a holistic understanding of the industry's various domains, including programming, technical design, and prototyping games mechanics. You will gain a well-rounded perspective, enabling you to thrive in design and production roles within the games industry by building on many exciting platforms such as VR, mobile and console.

Furthermore, you will learn how to code and develop an understanding of scripting, visual scripting and programming, take a deep dive into Unreal and Unity, and learn how to use Blueprints, C# and C++ to build mechanics.

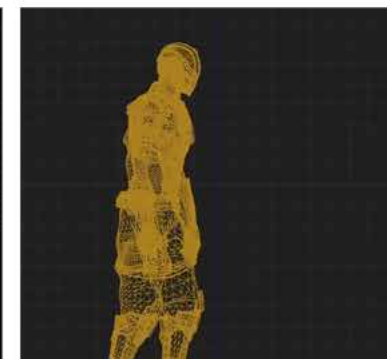

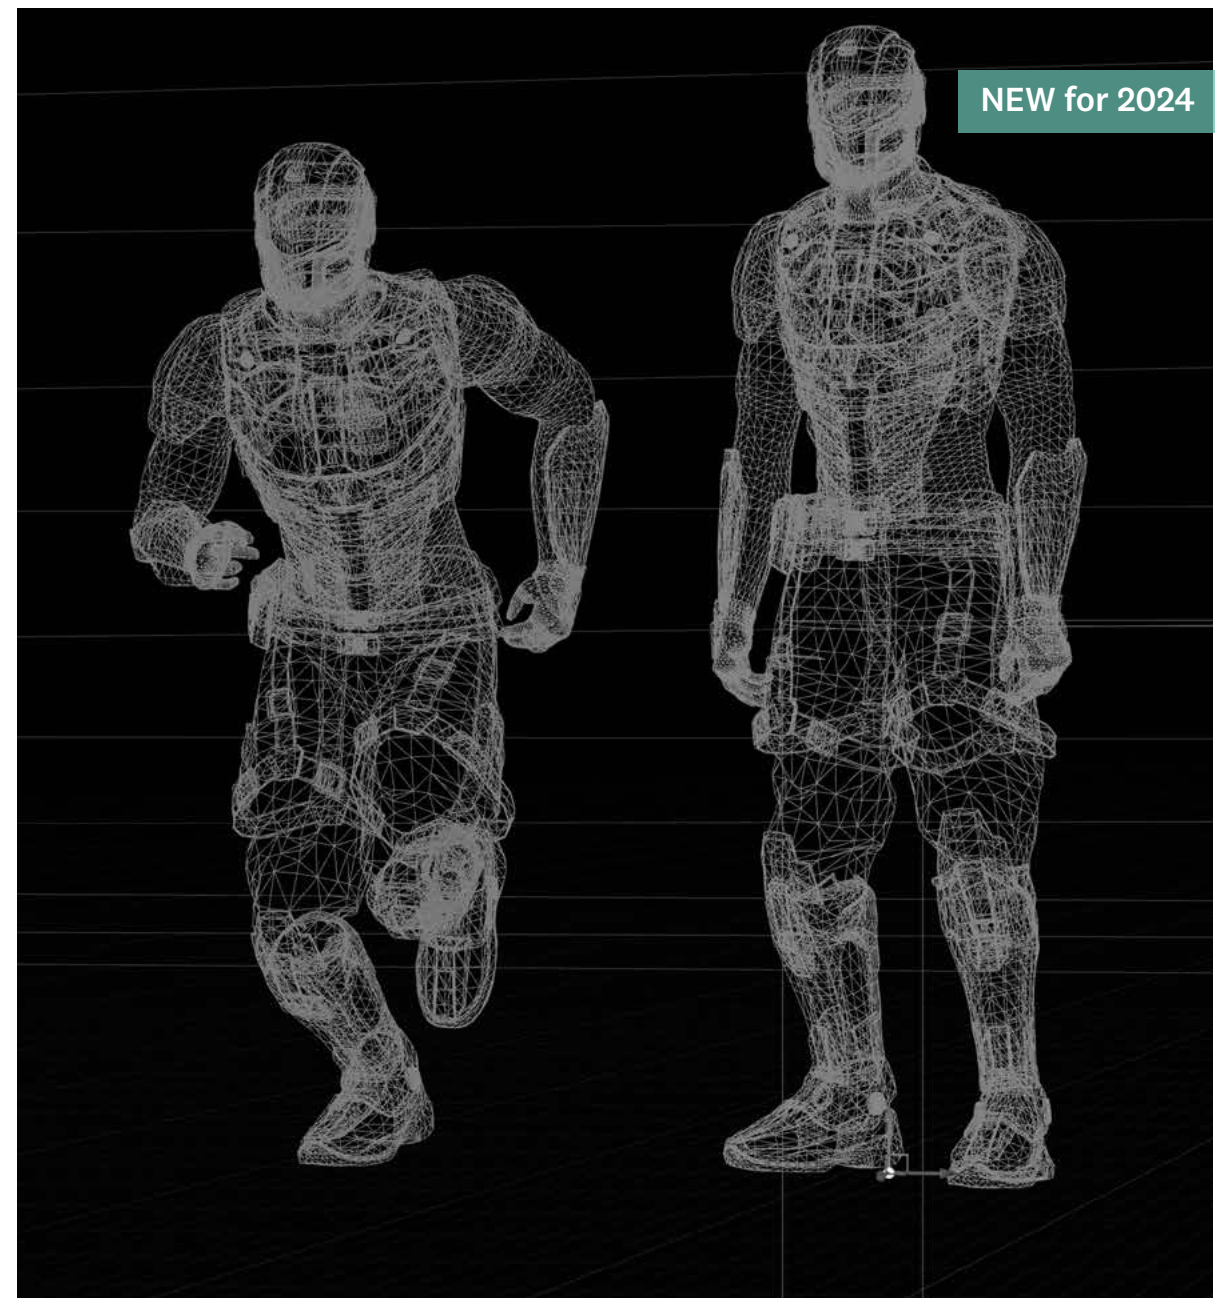

Are we speaking your language? If so, our comprehensive degree in Games Technology will equip you with a thorough understanding of the industry's production methodologies and business practices. BIMM University is here to support you as you embark on your journey toward success, making your mark in the exciting world of games technology.

This course is subject to approval.

# APPLYING TO BIMM UNIVERSITY BERLIN

---

**Start your future creative career now by applying to BIMM University Berlin. Here you'll find everything you need to know about what you need to apply. At each stage of your journey, you'll get support from our friendly Admissions Team who are there to help you succeed.**

## **How to Apply**

- > [Application walkthrough](#)
- > [Entry requirements](#)
- > [Fees and finance](#)
- > [Contact us](#)

# How to apply

Is BIMM University Berlin the right place for you? Follow our guide below and start your journey in just 15 minutes.

## STEP 1

### Submit your application

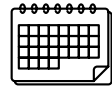

Start off by creating an account on our handy application portal. Then start the application. You'll be asked questions that help us to better understand you and your creative experience.

## STEP 2

### We'll review your application

Once you've submitted, our team will review your application so we can plan the next steps of your journey. You'll receive more information on what you need to do next (including submitting any documents and completing an interview) in the form of a conditional offer via email.

## STEP 3

### Book your interview

Our Admissions Team will reach out to you to arrange an interview for your chosen course. You'll also receive information on what materials you should prepare and submit in advance.

## STEP 4

### Complete your interview

Your interviewer will review the material you've submitted and use it to guide the conversation with you. This is your time to show us what you know and can do, as well as receive feedback on taking your skills further.

## STEP 5

### Accept your offer

You've submitted everything we need, smashed your interview and decided that BIMM University Berlin is the place for you. To seal the deal, pay your deposit and you'll be with us in no time.

## STEP 6

### Get ready to start building your creative career

We can't wait to welcome you to our incredible campus in Berlin. While you get prepared to start your life as a student with us, our team will be on hand to support with any questions you may have. Don't hesitate to reach out!

Discover more about the application process by scanning the QR code

# Fees and finance

Fees vary depending on whether you are a EU/EEA/Swiss or non-EU student, and whether you intend to study full-time or part-time. Our friendly finance and admissions teams are always on hand to guide you through the process. They will be able to provide expert advice on payment options, funding options and bursaries.

## BAföG funding

EU and some non-EU students are eligible for 'BAföG' maintenance support during their studies. Otherwise known as the Federal Training Assistance Act, this is a loan offered by the Federal Education Authority in Germany. For more information, visit [bafoeg-digital.de](http://bafoeg-digital.de).

## Other funding options for Europeans

Sweden: [www.csn.se](http://www.csn.se)

Norway: [www.lanekassen.no](http://www.lanekassen.no)

The Netherlands: [www.duo.nl](http://www.duo.nl)

Iceland: [www.menntasjodur.is](http://www.menntasjodur.is)

Additional funding options relevant to you may be available.

For more information on fees and finance, scan the QR code

# Entry requirements

## Academic

All BIMM University courses have academic entry criteria. You'll need to provide us with proof of your qualifications when you make your application.

Please note: in some circumstances, other criteria may allow you to apply to us through a non-standard entry route (i.e. demonstrable industry experience).

## English language

At BIMM University Berlin courses are taught in English. If your first language isn't English, and you haven't gained an English qualification during your education that is recognised by BIMM University, we will require evidence of an English language certificate from an approved examining body. This will need to meet the required B2 Level within the Common European Framework of Reference (CEFR).

Please note that English language requirements can vary between courses.

Discover the entry requirements for your course by scanning the QR code

# Discover more

## Virtual open days

Want to find out more about what our courses are like? Our virtual open days are the place to do that.

There, you'll meet lecturers, students and alumni who will be able to give you all the info you need about your course of choice.

## Open houses

Get a taste of what life is like on campus at our Open House events. Discover our facilities, meet lecturers and connect with current students in-person.

## Get in touch

Got any questions about the application process, entry requirements or what life as a student at BIMM University is like? Our team will be happy to help.
